Forecast for Friday 05 May 2023

Weather: Ranges east of the A9 will see a lot of cloud through the day with a little light rain or drizzle. West of the A9 cloud will be much more broken allowing some sunny spells and a chance of an afternoon shower.

Chance of cloud-free hill tops above 800m: Little chance east, 60% in the west

Low cloud and visibility: Poor in extensive cloud down to 500 to 800 metres shrouding the summits at first, this breaking and lifting across ranges west of the A9 by afternoon. Low cloud will persist across the Cairngorms and Drumochter hills.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Be prepared for strong and cold winds at height, also leading to slow progress. Low cloud will make for navigational difficulties too.

Forecast for Saturday 06 May 2023
Weather: Ranges west of the A9 will be mainly dry and bright, chance of an afternoon shower. A lot of low cloud persisting across the Cairngorms with a little light rain possible. Strong, cold southeasterly winds at height.

Maximum wind: Southeasterly 25 mph with gusts to 35 mph on the tops

Chance of cloud-free hill tops above 800m: 50%, best chance west of the A9

Low cloud and visibility: Poor in extensive low cloud down to 500 to 800 metres across the Cairngorms, this likely to persist throughout the day. Only small amounts of hill fog likely west of the A9.

Temperature: **Glens:** Plus 6 rising to 10 Celsius in the cloudier east, but 16 Celsius in the brighter west
At 800m: Plus 7 Celsius
Freezing level: Above summits
